### **Pistol Bay Mining Appoints Jody Dahrouge to Advisory Board**

**Vancouver, BC – February 14, 2017:** Pistol Bay Mining Inc. (TSX-V: PST) (Frankfurt – OQS2) (“Pistol Bay” or the “Company”) is pleased to announce that Jody Dahrouge, B.Sc., Sp.C., P.Geol., has joined the Advisory Board of Pistol Bay.

Mr. Dahrouge is a professional geologist with over 25 years of experience in Canada and internationally, and has a successful background in base metals, industrial minerals, rare metals and uranium exploration.

Since 1998, Mr. Dahrouge has been the president of Dahrouge Geological Consulting Ltd., a geological services company that provides consulting services to a broad range of public and private exploration and mining companies. He is a professional geologist (Alberta) and holds Bachelor of Science degrees in geology and computing science, both from the University of Alberta. Mr. Dahrouge has been involved in all aspects of mineral exploration and development for a wide variety of commodities worldwide.

Until September 2007, Mr. Dahrouge was President and COO of Fission Energy Corp. (“Fission”), and played a key role in the acquisition of several of Fission’s key exploration properties, including Waterbury Lake, Patterson Lake and Patterson Lake South (“PLS”). Two very significant uranium occurrences were eventually discovered at those projects, including the J-Zone at Waterbury Lake, and the Triple R uranium deposit at PLS. Mr. Dahrouge has been a director and VP Exploration of Commerce Resources Corp. since 2000.

Charles Desjardins, CEO of Pistol Bay, stated: “We are excited to be able to benefit from the knowledge and expertise of Mr. Dahrouge and look forward to working with him.”

*Cautionary note:*

*This report contains forward-looking statements. Resource estimates, unless specifically noted, are considered speculative. Any and all other resource or reserve estimates are historical in nature, and should not be relied upon. By their nature, forward-looking statements involve risk and uncertainties because they relate to events and depend on factors that will or may occur in the future. Actual results may vary depending upon exploration activities, industry production, commodity demand and pricing, currency exchange rates, and, but not limited to, general economic factors. Cautionary Note to US investors: The U.S. Securities and Exchange Commission specifically prohibits the use of certain terms, such as "reserves" unless such figures are based upon actual production or formation tests and can be shown to be economically and legally producible under existing economic and operating conditions.*

*Mineral Resources quoted in this news release are historical resource estimates that do not comply with the requirements of National Instrument 43-101. Insufficient work has been done on the deposits by a Qualified Person to determine the accuracy of the estimates, or what category of mineral resource that they might approximate to.*
