

Advanced Exploration Stage Zinc-Copper Properties in Confederation Lake, Red Lake area, Ontario

Pistol Bay Mining Inc. is a diversified junior Mining Canadian Exploration Company with a specific focus on zinc and other base metal properties in North America. The Company is engaged in the acquisition, exploration and development of mineral properties and is focusing on:

- ◆ **100% optioned properties in Confederation Lake VMS Greenstone Belt, Ontario:**
 - ◆ **Garnet Lake/Arrow Zone Zinc-Copper Claims**
 - ◆ **Copperlode A/Fredart, , Ben Lake, Joy and Caravelle Zinc-Copper Claims**
 - ◆ **Dixie 17, 18, 19, 20 and Dixie 3 Zinc-Copper Claims**
 - ◆ **Lucky 7 and Moth, Zinc-Copper Claims**
 - ◆ **Mitchell, Gerry Lake and Karas Lake Zinc-Copper Claims**
- ◆ **Uranium in Athabasca Basin in Northern Saskatchewan, optioned by Rio Tinto**

Pistol Bay Mining Property Map—Confederation Lake Group

Pistol Bay has acquired an additional 23,650 acres of ground by staking new claims covering previously unknown conductors and IP anomalies detected by the recently completed **2100 line km VTEM Plus™ airborne survey**. This brings the area to 51,050 acres in total claims. The new claims cover a continuous magnetic anomaly that runs for 6.5 kilometres between the existing Joy and Fredart claim groups. The total **strike length of this anomaly**, which encompasses the historic Joy and Fredart claim groups, is now approximately **22 kilometres**. The latest Mitchell claims are just 1.9 km from the historic South Bay Mine.

There are also numerous cases where the new survey has detected parallel conductors, or extensions of known conductors. The lengths of the four conductors in the newly staked claims between the Fredart and Joy claim groups, that do not appear to have been drill-tested in the past, are **400, 850, 900 and 950 metres** and there is an almost continuous trend of **conductivity over a length of 6.5 km**.

Confederation Lake Zinc-Copper VMS Greenstone Belt Property, Ontario

The Confederation Lake Belt is Dominated by Zinc-Copper-Silver+Gold VMS-Type Massive Sulphide Deposits

43-101 Resource Estimate

30 Zn Zinc 65.39	29 Cu Copper 63.546	47 Ag Silver 107.868	79 Au Gold 196.967
----------------------------------	-------------------------------------	--------------------------------------	------------------------------------

MINERAL DEPOSITS AND OCCURRENCES OF THE CONFEDERATION LAKE BELT						
Deposit	Tonnes	Zn %	Cu %	Ag g/t	Au g/t	Source
South Bay (Mined 1971-1981) - actual recovered grades	1,450,000	11.06	1.80	72.7		MNDM
Copperlode "A" or Fredart Zone	386,200		1.56	33.6		Pistol Bay
Garnet Lake/Arrow Zone—indicated plus inferred	2,071,000	5.92	0.75	21.1	0.58	Pistol Bay
	120,552	2.60	0.56	18.6	0.85	

The Confederation Lake properties consist of 1096 claims over 20,700 hectares or 51,050 acres. A total of 567 holes were drilled on the properties. This includes all of the mining claims Pistol Bay acquired from AurCrest totaling 321 claim units with an area of 5,136 ha over 31 km This area includes two substantial mineral deposits and a number of mineralized drill intersections that are in need of follow-up drill testing.

PB Blockchain Inc. (a wholly owned subsidiary of Pistol Bay Mining Inc.)

This subsidiary focuses on blockchain applications for mining and resource company management. We will be leveraging the work of other Application Program Interface (API) companies to build a suite of blockchain products to address needs that are particular to the data management and security of mining/oil and gas companies. It is expected that many of these blockchain products could have crossover to other industries. These blockchain products may include but will not be limited to focused Ethereum smart contracts, security, claim management, resource management and tokenization of resources. The technical team is now prioritizing products and working on time lines for roll out of early adopter products. We anticipate several announcements in this regard in January/February 2018.
